Budget Revisions

Mr. McMahand thanked the present Commissioners for attending the work session. After a brief intermission to give other Commissioner's time to join the meeting, the session proceeded. There were no significant changes made to the budget from the last meeting, only a few questions posed by the Commissioners that needed to be answered. These answers were emailed out and posted on the Board portal. Vice Chairwoman Calix questioned what department would be able to take on another position, should the new Executive Director decide to create one. Mr. Brown replied the COCC would be the budget that could handle it, but not for too long. Vice Chairwoman Calix expressed that this was concerning for her. The Fatherhood line item was pointed out, and the staffing plan numbers were confirmed, displaying 39 employees. There were no other questions from the Commissioners.
